

Dale-To-Downtown Bike Boulevard Project Description

The Dale-To-Downtown Bike Boulevard, to be installed in spring 2011, extends 3.1 miles from the Mountain View Transit Center to the southeast corner of the City, just west of the intersection of Heatherstone Way and Knickerbocker Avenue in Sunnyvale.

The bike boulevard route generally includes streets with lower traffic volumes and/or limited cross traffic. New bike-friendly features will include large directional signs with key destinations, distances, and estimated travel times; improved bike lane striping on The Americana; special bike boulevard pavement markings; traffic signage; and additional traffic signal loop detectors for bicycles.

Key destinations along or adjacent to the route include the Mountain View Downtown business district, the Mountain View Train Station, two trail heads for the Stevens Creek Trail, Sylvan Park, and the Palo Alto Medical Foundation Mountain View Center. The project is being funded through a grant from the Metropolitan Transportation Commission.
